

**Questions Bank**  
**B.A Third Year (Semester V)**  
**Economics**  
**Paper 110 – Environmental Economics**

---

(1) Explain the concepts/ terms/ units.

**Unit I:**

- 1) Sustainable development.
- 2) Market valuation of environment assets.
- 3) Acid Rain.
- 4) Green GDP.

**Unit II:**

- 1) Travel cost method.
- 2) Renewable Resources.
- 3) Water pollution.
- 4) Air pollution.
- 5) Environment.

**Unit III:**

- 1) Hedonic price of technique.
- 2) Chipko movement.
- 3) Green house effect.
- 4) Market valuation of environmental assets.
- 5) Global warming.

**Unit IV:**

- 1) Noise pollution.
- 2) Environmental studies.
- 3) Biodiversity.
- 4) Sustainable ecosystem.
- 5) Ganga action plan.
- 6) Noise Pollution Hazards.

(2) Write the short answer.

**Unit I:**

- 1) Write a short note on environment & development.
- 2) Explain Environmental Movements.
- 3) Explain the causes of ozone depletion.
- 4) Explain the concept of green GDP.
- 5) Explain environmental policy.

**Unit II:**

- 1) Write a note on environmental damages.
- 2) Write a note on environmental linkages.
- 3) Explain environmental institution in India.
- 4) Write a note Acid Rain.
- 5) What are the objectives of sustainable development?

**Unit III:**

- 1) Explain contingent valuation method.
- 2) Explain Chipko movement.
- 3) Explain meaning & importance of environment.
- 4) What is the indicator of sustainable development?
- 5) Write a note on environmental awareness.

**Unit IV:**

- 1) Explain the Govt. National Policy action plan.
  - 2) Explain silent valley movement.
  - 3) State the environmental laws relating to forest.
  - 4) Explain the importance of Environmental Impact Assessment (EIA).
  - 5) Explain what is biodiversity and the necessity for its preservation.
- (3) Write the answer in detail.
- 1) What is meant by Global Warming? What are the causes of Global Warming?
  - 2) What is water pollution what are causes of water pollution.
  - 3) Explain the remedial measures to control water pollution.
  - 4) Discuss various global environmental issues.
  - 5) Discuss the India environmental policies.
  - 6) Explain the different types of pollution & its remedial measures?
  - 7) Explain the concept of environmental accounting in detail.
  - 8) Explain pollution & its various types in detail.
  - 9) Explain the valuation of environmental damages.
  - 10) Explain Air Pollution & its impacts on human life.
