Total of 20 students of B.A. 1<sup>st</sup>, 2<sup>nd</sup> and 3<sup>rd</sup> year along with Dr. Shahela Yasmeen (HOD) and Dr. Afroz Begum went for the visit.

The observation home was established on 21<sup>st</sup> of September 1997. The capacity of the observation home is 100 children but at present 37 children were residing there. 50% of the children residing there are orphans, and the remaining were juvenile in conflict law. The orphans residing there were generally found abandoned in the hospital or railway stations. The juveniles were under 17 and have committed crimes like rape, murder, etc.

At the time we visited juveniles charged under sec. 307, 376, of IPC were not there. only delinquents charged under sec. 302, 379, 380 were there.

The children between age group of 6-17 years were residing there. Bal Kalyan Samiti admits the children of six years there, after attaining the age of 17 years they are sent in Shaskiya Sanstha Osmanpura.

They study in Bhartiya Vidyalaya till higher education. Strict discipline was maintained in the observation home.

Daily court is arranged for juvenile who are charged with offenses. Proper counselling is done of these children.

4 children share a room. Orphans are kept in different rooms than juveniles. The students of sociology dept. interacted with the children at the observation home individually and learned about their life. The students also got a chance to interact with the juveniles.

**Outcome:**

- The students understood the life style and behaviour of the children in observation home.
- The students also understood to respect and gratitude to everything whatever we do.

The goal of organizing the campaign was to spread awareness about the importance of menstrual hygiene and health to village women.

**Details of the activity-**

A health awareness campaign was organized by the Department of Sociology on 20<sup>th</sup> of January 2019. Menstrual hygiene is very important for the better health of girls and women of all age groups. Our girl students interacted with the women of the village and introduced them to the use of sanitary napkins. Later on some sanitary napkins were also distributed among the women of the village. At first the women were shy to talk about the problems they face but then our students made them comfortable. Our students and teachers went door to door for spreading awareness. The women of the village were very thankful for all the information they received. The students of sociology dept. interacted with the female residents of Rasoolpura and told them the importance of menstrual hygiene and how to maintain their health.

**Outcome:**

- The girl volunteers very well explained care to be taken in menstrual hygiene.
- The students distributed sanitary napkins to women and demonstrated how to use.
