Report of Activity for Submission to IQAC

Name of the Event/Activity: - 'Seed Balls making and Dispersal' activity

Programme Coordinator: - Dr. Ashfaque M. Khan (Chairman Eco-Consciousness Committee)

Date: - 24-05-2022 **Time:** - 11.00 A.M.

Venue: - Botanical Garden, Neighboring Villages (Ohar, Jatwada, Rasoolpoora, Golegaon)

Number of Beneficiaries: 40

Type of Activity: - Curricular/Co-curricular/ Extracurricular/ Extension/ NSS/ NCC/ College Committee activity/ Departmental activity/ CSR/ FDP/ Webinar.

Details of the event: Only One Earth! Theme proposed by MGNCRE Department of Higher Education, Ministry of Education, Government of India, New Delhi.

Goals and Objectives: Collection of Forest tree seeds within the campus, making seed balls of them and dispersal of the same in neighboring villages to help increase green space.

Highlights of the Programme (One and a half page write up)

The 'Seed Balls Making and Dispersal' activity was conducted by green volunteers as an initiative towards greening the environment. The increasing population is creating pressure on resources, which has resulted in many environmental problems. The forest cover is depleting and the green element of the environment is deteriorating day by day. The aim of this activity was to make the student, community as well as public aware about the environment and its conservation. The objectives of this activity were to involve students in preparing Seed Balls and distribute them among the students, teaching and non-teaching staff and to create awareness about a better environment among the public, in an innovative manner.

On the occasion of world Environment Day volunteers made 159 Seed Balls of different forest plants from the seeds collected on the campus and nearby forest areas. Seeds of Palas, Neem, Tamarind, Silk Plant, Australian Babul, Subabul, Bahunia etc were used to make seed balls. The Seed Balls were made by mixing soil and compost. The student's volunteers were instructed by the coordinator about the procedure of making the Seed Balls. After making the seed balls, they were kept to dry for more than 24 hours in shade. The same seed balls were dispersed in the campus and neighboring areas of the campus. Principal Dr. Mazahar Ahmed Farooqui himself was involved in making and dispersal of seed balls along with other staff members and student volunteers.

Relevance and Outcome: -

The participants benefited with collection of seeds from the college campus and got trained for making seed balls.

Introduction

Associated with the problems of poverty and unemployment is the problem of beggary which is a social problem of great magnitude and grave concern in developing countries. Begging is a problem for society in as much as a large number of beggars means non utilization of available human resources and drag upon the existing resources of the society. In spite of its rapid economic growth, India is a poverty-driven country, which is also leading to the growth of beggars in the country. It is well settled that the right to life is the right to live with dignity and with necessities of life required for it. In our constitutional framework, this is guaranteed by Part III which enjoins the State not only to protect life but also to advance it, and Part IV which mandates that the State shall allocate resources so as to further the common good. According to the Bombay Prevention of Begging Act, 1959, which criminalize the begging, the provision not only criminalizes the begging in the Mumbai but also in various metropolitan cities such as Delhi. However, last year, the Delhi High Court in a landmark judgment has held the Act as unconstitutional in Delhi, on grounds that it violates Article 14 and Article 21 of the Constitution restoring the rights of persons who have no other means of sustenance but to seek alms. The court has acknowledged that the application of the anti-beggary act has largely been arbitrary, leading to the detention the poor who may not be engaged in begging, but could be people who have “fallen through the socially created net” — they could be homeless, poor persons living with disabilities, transgender persons, migrant

or sex workers. The bench of Acting Chief Justice Gita Mittal and Justice C. Harishankar has noted that it is a state whose duty is to provide a dignified life to its citizens. About four lakh beggars of India must have heaved a sigh of relief with the Delhi High Court ruling that seeking alms is not a crime, even as blasting the government for turning a blind eye toward the most vulnerable and downtrodden section of society. The unprecedented decision to strike down as many as 25 provisions of a bootless, draconian anti-beggary legislation also means instant freedom for hundreds of panhandlers being prosecuted and dumped into dungeons for months on end.

Beggars of India (as per Census 2011)

	INDIA	DELHI
Male	2,21,673	1,343
Female	1,91,997	844
Total	4,13,670	2,187

Research Report

A survey was conducted in the year 2021-22 by the department of sociology, Maulana Azad College to access the condition of beggars in Aurangabad city, Maharashtra.

The survey was conducted of total 54 beggars out them 13 were male and 41 were female. One teacher and 5 students participated in the survey.

Most of them replied that they were compelled to beg due to their worsening financial conditions. Surprisingly out of 54 merely 09 were physically disabled. Almost all of them were willing to work with dignity instead of begging. Few were college dropouts and had to leave their studies due to the situation of their families. The dropouts were given counselling regarding their further studies and were educated about the different scholarships offered to the economically backward class.

Earnings of the beggars per day.

Earning /day [in rupees]	number	percentage
<100	02	3.7%
100	12	22.2%
200	30	55.5%
>=300	10	18.5%

Analysis of the data collected.

The earnings of most of the beggars is very low which is not even enough for their food. Most of the school dropouts are from higher secondary school. However, a number of beggars never even went to schools and have been begging all their lives. Some of the women were compelled to beg due to widowhood.

Limitations

The number of beggars in India is very high and also the problem of unemployment. it is very difficult to eradicate the poverty in India. Due to illiteracy some of the beggars have no other source to provide for their families.

Suggestion -

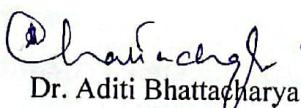

An initiation to be taken to make the beggar aware about schools and higher education scholarships also to help the dropout students to restart their education.

Conclusion-

The survey helped us to get a better understanding of the situations of beggars, we helped the school dropouts to restart their education and get admission for further studies.
