**Feedback Committee Action Taken Report 2023-24**

The college's Feedback Committee is active. The committee's members developed the curriculum and gather feedback and assess the performance quality of the curriculum and curriculum-related concerns. Feedback forms from students, professors, employers, alumni, and parents were gathered for the academic year 2023-24. The college students who provided input came from several departments. The committee analysis queries and problems are handled with the assistance of the relevant authority.

**Feedback Analysis:**

It addressed curriculum and learning-related issues for students in terms of quality, industry needs, syllabus content that was in line with the course objectives, industry standard, and competency. This commentary takes into account additional concerns, such as teacher delivery of the curriculum.

It addressed concerns for employers such the breadth and depth of the curriculum, its difficulty level, its advancement, its utility in obtaining current or advanced information, and its usefulness for career advancement.

The feedback for teachers addressed issues like the applicability of the courses and its necessity, the curriculum's outcomes, the connection between the course content and the relevant reference material, the accessibility of the reference materials in relation to the curriculum, industry need, etc.

For alumni and parents, it sought feedback on whether the course curriculum was adequate, whether the syllabus content was sufficient in light of the current professional standards in the sector, and whether there was a good balance between theory and practice. The feedback forms were evaluated by the committee and following major findings were reported to the principal.

1. Some students recommended that the content of the curricula needed to be improved in light of industrial requirements.
2. The employer also emphasized the importance of ensuring that employees have access to current advances and innovations in the domains of science, social science, and business.
3. Some employers felt that the course curriculum should be expanded to meet international standards. They also believed that the program should include more hands-on training.
4. Parents' response suggested that field trips should be included in the curriculum.

5. The student's overall opinion was that sanitation and cleanliness need greater attention.

6. The students also required remote access to e-books and e-journals.

The member of the feedback committee informed the principal of the issues and provided remedies for all the aforementioned feedbacks. It was suggested that the BOS member representing the college faculty be notified so they may bring up new advancements, field trips, and curriculum enlargement at BOS meetings. The principal gave instructions to the housekeeping staff and got the job done in terms of sanitation and cleanliness. Additionally, a number of guest lectures and webinars were organized by various departments and committees to keep students up to date with subject advances.

**A Report on the Students Feedback on Syllabus 2023-24**

The offline feedback of syllabus collected from the students studying in different classes of college for the academic year 2023-24 on various aspects/questions which includes:

1. How is the content of the syllabus?
2. Does the syllabus meet industry needs?
3. Are subjects covered appropriate to the course?
4. Are the contents of syllabus aligned to the objectives of course?
5. Are sufficient reference books prescribed in the syllabus available in library?
6. Does the syllabus have good balance of theory and application?
7. Does the course increase your knowledge and perspective in subject area?
8. Does the practical's meet the industry standard?
9. Do the study tours, field visits have relevance in understanding the curriculum?
10. Is the syllabus at par with similar courses of other Universities?

**885 students of our college participated in the survey consisting of 10 aspects/questions.**
